

## TUSCALOOSA CITY SCHOOLS

### **TCS Technology Award Application**

All school-level TCS Technology Award winners will complete this application in order to be considered to represent TCS in the state Chiquita Marbury Technology Awards. From among the school-level winner applications, a committee headed by the Instructional Technology Coordinator will select nominees to the state Chiquita Marbury Technology Innovation Award in the categories Elementary School Teacher, Middle School Teacher, and High School Teacher. The committee will also select a nominee in the category School Administrator.

Nominations to Alabama's Chiquita Marbury Technology Innovation Award are due around April 1 every year and submitted via an online form that must be completed in one sitting. The instructional technology team will work with our district winners to prepare their nomination materials in advance.

### **Application Directions**

1. Make a copy of this document, add your information, and submit as directed in relation to the annual TCS Apple Awards event.
2. Name:
3. School:
4. Grade/Subject:
5. Describe the innovation and creativity involved in your use of technology. Consider teaching and preparing for classes, leading and organizing work, collecting and evaluating data, communicating, and creating digital content.
6. Describe the impact of your use of technology on teaching and learning. Consider student achievement, interest in learning, and improving performance.
7. Describe your leadership in using technology. Consider committees, supporting colleagues, and promoting technology.
8. Describe how teamwork (school, district, state, and national levels) is involved in your use of technology.
9. Describe how scholarship (your growth or informing others) is involved in your use of technology.
